HARRISBURG March 4 -- Phis has been a very quiet session. The work in the house goes through in a rather perfunctory manner. Very few hills make any discussion, but the week just alesed has been an exception to the general rule, for on the house side the members have been very busy and a few surprises were sprung in the way of oratory, in the manner the bill fixing the minimum salary of teachers was handled. The bill was the occasion of more discussion than any other bill that has been before the house this session. The bill finally rassed the house by a very decided majority, fix ing the minimum salary of any teacher at thirty five dollars a month. It is sit around the camp-fire and listen to now up to he senate-and it is believed that branch of the legislature will pass the measure as it now stands. Some think it unconstitutional, being in the nature of class legislation, but the prevailing opinion is against that view, as they consider it more in the nature of a contract with the state The opinion prevails that it may defeat the very object intended by the bill that instead of raising the standard of the teachers, it may bring those holding professional certificates down to the level of those having only pro visional certificates, by oringing the

The New ELECTION American is making a strong fight for 0F SENATORS, the election of United States sens

tors by direct vote of the people It is proing upon the various state legisla tures now in session the expediency o passing a joint resolution making ap plication to congress for the calling of a consintional convention for the carry r me to the sick handk rch e purpose of submitting to the voters an or apro s that had touched H s b d mendment providing for the selection of senators by the people. In an article advocating this movement the American says that ' when thirty legis latures have adopted such a resolution the convention must be called Thus the obstructive tactics of the senate, which year after year has stubbornly refused to concur with the house in submitting the amendment, will be defeated. There is no argument against this reform that will bear ex amination The favorite objection is t at, should the people and not the

manner in which senators are or may be elected has nothing whatever to dr with the senate's character with its place in our scheme of government No matter how senators are chosen the constitutional right of each state to equality of representation in the chamber cannot be impaired "There is therefore, no reason why

any Democrat as a Democrat, should be hostile to the change from election by legislature to election by the people On the contrary, the proposal is thor oughly democratic, since it gives more power to the people "Neither would the change reduce th

dignity of the senate. The notion that lawmakers owe their seats to a mathod of choice which implies that the people are unfit for the duty of selecting them are somehow more 'dign; fied' than pub lic servants elected at the polls by pop ular vote is utterly un-American be cause it is essentially aristocratic Carry the notion to its logical length and we should possess a hereditary senate, supremely august for the rea on that the people have had no hand in

"State rights Democrats and those Republicans who believe in central ization are at squal liberty to support the popular election reform, since it has not a shadow of pearing upon state in any true sense a party question 1 is advocated by men of all parties and favored by an overwhelming majority of the American people Why? Be cause experience has demonstrated that the plan of electing senators by the legislatures is a failure and worse than a failure It has led to flagrant corruption It has deprived states for long periods of representation in the senate It has lowered the quality of legislatures by frequently making the election of their members dependent not upon fitness but upon their will ingness to vote for some particular candidate for the senate. It has produced bad state government by causing contests which have taken the minds of legislators away from the affairs of their states It has made the senator ial office less the reward of merit than the prize of ambitious and unscrupulous wealth It has enabled powerful corporations, seeking to seeme or retain unjust privileges to send men to the

of the states "Election of sonators by direct vote would make the senate what it ought to be, a body representing the people of the several states It would enor mously decrease the opportunities of predatory wealth to clothe its servants with senstorial power and dignity It would give us a free senate, to which poor but able men could aspire, in place of a house of lords for the trusts "The American hopes to see many

legislatures within the next few weeks join in this thoroughly American Nort Have done so for twenty sever movement Twenty-nine states have already deciared for it in general terms There is no reason why every one of them should not put its ap proval in the form of a demand for a constitutional convention

. The senate has refused to grant the netitions coming from legislatures and other sources, for the submission of the desired amendment. But the people can prevail in spite of the ob atructing senate The Constitution provides a way Two thirds of the state legislatures have but to make the demand for a constitutional con vention, and the senate will have no

A Word to Nursing **Mothers**

It is a well known clinical fact that bab es who depend wholly on mother s milk never have cholera, and are exempt from two-thirds the auments which afflict infants.

Some inkling to this has checked the resort to artificial foods and begun to make it "good form" for every mother to nurse her own baby --- when she can Some try it, and grow weak and

nick under the strain. With others the milk flow is insufficient, and the poor baby is at last given over to the tender mercies of the milkman with his corn fodder, and stale slops, and worse

If any mother within ten miles of our store reads this, we want to give them a hint. Try Vinol. There are many mothers who have

found that it enabled them to take more nourishment, restored their strength, and made baby healthy, hearty, and happy. Vinol not only supports the

mother's strength but transmits to the babe the foundation for a healthy childhood.

How a Buffalo Runs

The world has read the exaggerated description of a buffalo stampede, but I don't believe anybody has ever done justice to the wonderful speed of a buf falo when lost from the herd and try ing to catch up says a man of experience. It is a deceptive gait. The man who never saw it before would swear that he could out un the animal bare footed But the fastest borse ridden by cowhojs coulds t catch a buffalo whe running alone

Its marvelous lope steady and endur ing carries it over the prairie at a speed that would make a race horse lie he I cu Hui c d down and cry at the cuc of the Mi M down and cry at the cuc of the mile But the buffalo keeps this gait up all day and at night his great flanks show no signs of fatigue

extinoidingly meident related by a planter from Ceylon is only anothe proof I went after a herd of eight elephants, he says 'After stalking I got a chance in the biggest of the herd and dropped it at the first shot. About iwo hours afterward I had the tail and feet cut off and taken to the bungalow Next morning I went to the spot to look at the elephant and to my surprise found ac trace of the body. After look ing to a d I saw that the berd had been tack dan as the molet and I soon discoverce a frack where they seemed to have remed in a lody Pollowing this up i eventually came upon the dead ele francismo, it the bottom of a rocky strong from the tracks it was quite evident that the body had not been rolled but carried to the bank, and it was plan that it had been taken through the long grass which grew on the lank into the stream. My neigh bers were an redulous until I showed them when the elephant's tail and fect had be nocut oft and where the body has at the stream, which proved conclusived that by some means or other the book had been got over the intrivering space in the night. It is difficult to understand how elephants with their numbs and feet could raise and support the dead body of a com ride However they seem to have managed to do it and it is a pity no

When women are troubled with irregular or painful menstruation, weakness leutorrhoa, displacement or ideration of the womb, that bearing down feeling, inflammation of the ovaries brokache, flatulence, general debility, indigestion, and nervous prostration they should remember there is one tried and true remedy Lydia E. Pinkham's Vegetable Compound at once removes such troubles The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause and restoring the organs to a healthy and normal condition. If in doubt, write Mrs. Pinkham at Lynn, Mass, as thousands do.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute. "Fewer Gallons; Wears Longer." The secret is out and Bedford can go

on living just as if the riddle had never been asked. No it can't, either. Bedford is not going to be what it was before. Its

houses are going to be brighter; its people a little more prosperous-they are going to have some of their money left to buy other things with. The answer to the riddle is this: you

can paint a building with fewer gallons of Devoe Lead and Z no paint than with mixed paints, and it will wear severa; times as long as a building painted with lead and oil mixed by hand What will people do with the rest of their money? J W Intersells it.

Many school teachers will enter the Meyeradale Commercial college, Meyaradale, Pa., for the spring and sum mer sessions.

Something About Mohair.

Other styles up to \$3.75.

Every spring when the warm weather comes and the dust begins to fly, women turn to mohair. Until now we have thought mohair one of the plain homely stuffs that could only be used for hard service-but since the new weaves have come out, it has & been advanced to a place of honor. Plain colored mohairs, 37½ & to \$1.00. Pin-striped mohair 50c Sicilian mohair in black and cream 50, 75 and 98c.

Colored Cheviots.

There are loose cheviots like hopsacking, and tightly woven cheviots; smooth cheviots and rough cheviots. No dress stuff that we know is more honest than cheviot.

You can use it for better or for worse and it always serves its purpose diligently and conscientiously. We keep certain grades of cheviot every year—only changing

the colors to suit the call of fashion. The better grades of cheviots begin at 75c, \$1 00 and \$1.50. A lighter weight—40 inches wide, at 50c, 60c and 65c a yard.

NEW SHOES. Spring Styles.

Every week we are adding to our stock the new things in Spring Footwear. We are showing exceptional values this week in \$2.00 Shoes. Come in and look at them. You'll say they are worth \$2.50 when you see them. Winter Weight Shoes (lots of time to wear them yet) at a saving of twenty per cent.
